A New World Record

Our Horacios climb into history books - reaching the top of the world and setting records for the world's highest banking transactions

The Horacios have fulfilled a life's ambition, reaching the peak of Mount Everest. They've climbed to the very top, 8848m above sea level.

After their first success at Base Camp of trading 50 Standard Chartered (2888.HK) shares on the HKEx, they attempted another transaction at Everest Camp 4 located at 8,000 metres.

Battling the freezing minus 40 below zero temperatures, winds of 100km/h and unstable connectivity in this perilous zone, our Horacios debuted our Breeze Balance app which launched a week ago on the iTunes App Store.

@StanChartBreeze

Hi @stringz Breeze is also in a verified SSL server. The new website SSL Cert is more customized but the level of security is the same.

A successful transaction!

Breeze @ Everest Camp 3 altitude 6,500m

Our Horacios have successfully traded shares with Breeze Trade and conducted funds transfer with Breeze Banking at Everest Camp 3 located at 6,500 metres.

These are the highest banking transactions performed on planet earth and Standard Chartered Breeze has proven robust enough to be used at extreme altitudes.

The Horacios will journey back to Base Camp then take some well deserved rest. They will spend a few days here before commencing their trek back to Lukla then onto Kathmandu.
